

## ***Athlete Assistant Program (AAP) Criteria for Nominations for the 2018-2019 carding cycle Olympic and Paralympic Programs***

### **Introduction**

The purpose of this section is to present the criteria for the determination of the CFF / Sport Canada Athlete Assistance Program (AAP). The target audiences are athletes and the coaches of such athletes who now access or wish to access the program.

The AAP (carding) recognizes the commitment a fencer makes to long-term training and competitive programs and seeks to relieve some of the pressures associated with the participation in international sport. In particular, the AAP provides financial assistance to Canadian high-performance fencers to assist them in seeking enhanced training opportunities intended to progress their performances. To this end, the assistance helps fencers with their training and competition needs and is paid directly to the fencer. The AAP objective is to support Canadian athletes identified and nominated by the CFF as performing at or having the greatest potential to achieve the Senior international criteria at Olympic/Paralympic Games and World Championships. The coach remains a critical component of the team and in conjunction with the CFF manages and directs the fencers' training plan. The AAP is the only Sport Canada program to provide direct financial support for athletes.

The AAP is not a reward for past performance. It is financial support to assist athletes to progress to the podium. Consequently, carding status cannot be awarded indefinitely. An athlete with a Development card must progress to the Senior National Team card level. Likewise, an athlete with a Senior National Team card must progress to the Senior International card level.

Each card section below outlines restrictions on its duration and progress.

### **The CFF's Authority for Decisions**

All matters relating to the nomination of athletes for AAP are the sole authority of the Executive Director of the CFF. The ED makes decisions relating to AAP nominations on the basis of the approved CFF AAP Criteria and requirements.

Sport Canada is responsible for the final approval of nominations to the AAP.

### **Eligible Fencers**

- Fencers competing in 2020 Olympic/Paralympic events are eligible to be nominated for AAP support.
- Fencers must meet CFF minimum standards for Pan Am Championships/World Championships as outlined in the CFF HP booklet to be eligible for AAP support.

- Fencers must hold validated licenses from the CFF for the current season, be members of the HP program and be Canadian citizens.
- Fencers must meet the AAP Athlete Eligibility Requirements described in section 2.3 of the AAP Policies and Procedures : <http://canada.pch.gc.ca/eng/1414514343755/1414514385181>

### **Fencers Training Outside of Canada**

Carded fencers must train in Canada during the carding period. Fencers electing to train outside of Canada must receive prior approval from the CFF.

The following shall apply to fencers who meet the carding criteria and who are training abroad:

- i. All fencers training outside of Canada shall be expected to support the National program as outlined in this document.
- ii. Fencers who are attending NCAA institutions and are receiving an athletic scholarship are not eligible to receive AAP support in the months in which they are attending the NCAA institution. These fencers may be nominated for AAP support during the months they are involved in National Team training and competition activities and not attending the foreign post-secondary institution.
- iii. Fencers who have finished their NCAA eligibility but continue to attend school in the USA for the purpose of finishing their degree or to pursue a post-graduate degree are eligible to be nominated for AAP funding as long as they commit to support National Team Program activities and the training and competitions program is approved by CFF.
- iv. Fencers of high school age (or younger) who achieve the carding criteria while living and training in Canada but are forced to move out of the country for reasons beyond their control will normally be eligible for AAP funding until they are of University age if their training and competitions program must be approved by CFF. At this time their circumstances will be reviewed by the CFF.

### **Carding Opportunities – Fencing Athletes**

- Sport Canada is currently reviewing the carding quota for all sports. The current quota for Fencing's Olympic program is the equivalent of **eleven (11)** Senior level cards and of two (2) Senior cards for the Paralympic program but is subject to change following Sport Canada's review.
- The athletes are nominated for the carding cycle that start on October 1st, 2018 and ends on Sept. 31st, 2019.
- Of the Olympic program's carding quota, a minimum of two (2) athletes will be recommended for D cards if eligible.

If the athlete does not advance to the Senior International level after the maximum time limit, the athlete will undergo a stringent review by the CFF. In order to be carded at Senior National Team level for a sixth year and beyond, the CFF & Sport Canada must be satisfied that the athlete's performances are progressing and that the fencer has the potential to advance to the Senior International level.
- ii. Any year of carding at the Senior National level (SR/C1) when the athlete is FIE Junior age (20 years of age or younger) will not count towards the maximum.

## **Developmental Card Criteria (D)**

### **A) Olympic program**

Development Cards are intended to support the developmental needs of younger athletes who clearly demonstrate the potential to achieve the Senior Card international criteria but are not yet able to meet the Senior Card criteria.

An athlete previously carded at the Senior Card levels (SR1, SR2 SR, SR inj., C1) for more than 2 years is no longer eligible for the Development card unless the athlete was FIE junior aged (20 years of age or younger) when he/she was awarded Senior card(s).

A Development Card may not be awarded to an athlete older than 5 years past the IF junior age category. The IF Junior age is 20 years or younger, so athletes that are 26 years of age or older are not eligible for this card level.

A minimum of two (2) athletes will be recommended for D cards if eligible. Additional Development cards are subject to the number of cards awarded in the Senior International and Senior National Team levels.

### **Athletes will be recommended in the following priority order:**

**Priority 1 – Team events: Athlete in a team that placed in the top 3 at the 2018 Junior World Championships in a team event.** Athlete must have participated in a team win in the round of 8 or higher. If tied, the athlete with the most points in the Final Junior HP Selection Ranking will be ranked higher.

**Priority 5 – Individual events: Athlete who placed in the top 4 at the 2018 Cadet World Championships in an individual event.** If tied, the athlete with the most points in the Final Cadet HP Selection Ranking will be ranked higher.

**Priority 6 – Individual events: Athletes who have a minimum of 14 FIE points in the Official Final FIE Senior Individual Ranking.** Athletes will be prioritized by highest number of FIE points. If tied, the athlete with the best result in one World Cup/Grand Prix will be ranked higher.

**Priority 7 – Individual events: Eligible athlete who won a Gold Medal at the 2018 Junior Pan-Am Championships in an individual event.** If tied, the athlete with the most points in the Final Junior HP Selection Ranking will be ranked higher.

**Priority 8 – Individual events: Athletes who have achieved the most points in the Final Junior HP Selection rankings.** If tied, the athlete with the most points in the Final Senior HP Selection Ranking will be ranked higher. Only athletes with 300 points or higher in the Final Junior HP Selection rankings are eligible for carding under this criteria.

## **B) Paralympic program**

Paralympic Development Cards are intended to support the developmental needs of developing athletes who clearly demonstrate the potential to achieve the Senior Card international criteria.

- Normally athletes previously carded at the Senior levels (SR1, SR2, SRinj, SR or C1) for more than 2 years are no longer eligible for development carding, unless the athlete was of the FIE junior age at the time (20 years or younger).
- An athlete may only be carded a maximum of five (5) years at the Development card level. After such time Fencing Canada will conduct a comprehensive review of the athlete's performance over the past four years in order to demonstrate progress toward performance equivalent to top 8 and top half at the World Championships or Paralympic Games, which may warrants nomination of "Development" card status for an additional year. This process must be followed for all subsequent years that the athlete is nominated at this level.

### **Athletes will be recommended in the following priority order:**

Athletes who are ranked in the top 32 (and top half of ranked fencers) on the 2017-18 IWAS World Rankings as of September 15, 2018, as per Paralympic quota (2 per country), in any one of their events is eligible for nomination at the Development (D) level.

### **Illness, Injury or Pregnancy Condition**

At the end of a carding cycle during which a carded athlete has, for strictly health-related reasons, not achieved the standards required for the renewal of carded status, he or she may be considered for re-nomination for the upcoming carding period under the following conditions:

- i. Olympic Program: The athlete was carded at the Senior International card levels or the Senior National priority 1 or 2 card level at the end of previous carding cycle. Paralympic program: The athlete was carded at the end of previous carding cycle.
- ii. Athletes must have completed the Athlete Pre-Participation Medical in CAMP in order to be considered for injury card application.
- iii. All new injuries must be recorded in CAMP by treating medical professionals within 14 days of the date of diagnosis or of the date when the athlete had to interrupt his/her training. A licensed sport medicine practitioner must make any such signed diagnosis.
- iv. Athletes must give CFF access to CAMP injury documentation pertaining to the injury/illness in consideration of injury card status.
- v. Athletes need to submit a “Verification of Athlete Illness or Injury form.”  
*(<http://fencing.ca/wp-content/documents/Athlete%20Illness%20or%20Injury%20Verification%20Form.pdf>)*
- vi. “Verification of Athlete Illness or Injury Form” is to be completed only by a Canadian National Sport Centre Physician holding a CASEM Diploma of Sport Medicine or other CASEM Diploma of Sport Medicine Physician approved by the Canadian Fencing Federation.
- vii. Fencers receiving an injury card must report monthly to the CFF’s National coach in their Weapon on their rehabilitation activity and progression. This must continue until such time as they are deemed fit to return to full training by a certified sport medicine practitioner. Failure to report on a monthly basis may result, in the sole discretion of the CFF, a recommendation to Sport Canada to withdraw carding.
- viii. Conditions outlined in the Sport Canada AAP policy entitled “Curtailed Training and Competition for Health Related Reasons” apply to all injury and health condition applications.

### **CFF Selection Appeals Policy**

Appeals of the CFF’s AAP nomination/re-nomination decisions or of the CFF’s recommendation to withdraw carding may be pursued only through the CFF’s review process, which includes an application to the Sport Dispute Resolution Centre of Canada (SDRCC). Appeals of AAP Decisions made under Section 6 (Application for and Approval of Cards) or Section 11 (Withdrawal of Carding Status) may be pursued through Section 13 of the AAP Policies, Procedures and Guidelines.
